

Security and data overview

How asasii campus handles identity, roles, audit, student and parent data, and continuity.

Identity and access

Single sign-on	With the institution's own identity provider
Multi-factor authentication	Required on every console
Roles	Access to student records scoped to role

Audit

What is recorded	Every change to a record, with who made it and the previous value
Retention	Seven years

Where the data lives

Environment	The institution's own cloud account or data centre, as its data policy requires
Ownership	The institution owns the software and the records; its team holds the keys, the backups and the data
Maintenance	idataraya installs the system, hardens it and keeps it current

Student and parent data

Minors and their families	Student records include minors and their families, and the data carries obligations accordingly
Personal data	Student and parent data stay in the institution's own environment, under the Personal Data Protection Act 2010
Export	Every record exports on request

Continuity

Backup	A drilled backup and restore
Monitoring	Continuous, from within the institution's environment
Response	Severity-based response times, measured monthly

Cutover	Between intakes, with the previous path kept available until the new one is trusted
----------------	---

Integration

API	Documented, for student records, fees and payments
Academic systems	Learning management and academic systems integrated, not replaced

asasii campus is a product of idataraya Sdn Bhd (1263428-K), Kuala Lumpur. Deployed in the client's own environment, customised and maintained by idataraya. info@idataraya.com · campus.asasii.com
